Question

Context

Observation

Ethics

Interviews

Archiving

Results

Indicate the research question:

Dotted lines for text input

Indicate the context to observe:

Dotted lines for text input

Indicate the key places for observation:

Dotted lines for text input

Indicate the details on the time, moments and circumstances in which the observation is made:

Dotted lines for text input

Indicate the chosen approach for the observation:

N.B. In the case of a non-intrusive approach: be careful not to get noticed, otherwise the spontaneity of the people observed could be compromised

- Non-intrusive immersive
Participatory

Indicate who takes on the role of observer and the level of anonymity chosen:

Dotted lines for text input

Indicate how the data is collected:

Dotted lines for text input

Define the ethical line to follow:

Dotted lines for text input

What permits / information are needed?

Dotted lines for text input

Indicate who will take care of it:

Dotted lines for text input

Indicate the type of interviews to be performed:

- Non-structured
Semi-structured

Indicate the minimum number of interviews needed:

Dotted lines for text input

Indicate the time to give to each interview:

Dotted lines for text input

Indicate the support tools to be used during the interviews:

Dotted lines for text input

Indicate the tools to be used for archiving all data (e.g. PC, specific software, paper files, cloud system):

Dotted lines for text input

Indicate how you intend to analyze the data collected and stored:

Dotted lines for text input

Indicate what results you intend to achieve (e.g. reports, videos, diagrams, maps):

Dotted lines for text input

Note:

Dotted lines for note
